ELSEVIER

Resuscitation 36 (1998) 221–222

RESUSCITATION

Volume contents

Volume 36 (1998)

In this issue 1

Clinical papers

J.A. Handley, A.J. Handley (UK)
Four-step CPR—improving skill retention 3
P. Suominen, J. Räsänen, A. Kivioja (Finland)
Efficacy of cardiopulmonary resuscitation in pulseless paediatric trauma patients 9
E. Dereeper, R. Ciardelli, J.-L. Vincent (Belgium)
Fatal outcome after polytrauma: multiple organ failure or cerebral damage? 15
D.C. Bryden, C.L. Gwinnutt (UK)
Tracheal intubation via the laryngeal mask airway: a viable alternative to direct laryngoscopy for nursing staff during cardiopulmonary resuscitation 19
J.J. Osterwalder, W. Schuhwerk (Switzerland)
Effectiveness of mask ventilation in a training mannikin. A comparison between the Oxylator EM100 and the bag-valve device 23
M. Holmberg, S. Holmberg, J. Herlitz, for the Swedish Cardiac Arrest Registry (Sweden)
Survival after cardiac arrest outside hospital in Sweden 29
K.G. Monsieurs, H. De Cauwer, F.L. Wuyts, L.L. Bossaert (Belgium)
A rule for early outcome classification of out-of-hospital cardiac arrest patients presenting with ventricular fibrillation 37
E.O. Jørgensen (Denmark)
Neurological and circulatory outcomes of cardiopulmonary resuscitation in progress: influence of pre-arrest and arrest factors 45

Experimental papers

P.D. Donnelly, C.A. Lester, C. Morgan, D. Assar (UK)
Evaluating CPR performance in basic life support: The VIDRAP protocol 51
K. Sunde, L. Wik, A.-C. Næss, P.A. Steen (Norway)
Impact of a child first aid wall calendar on lay people's skills and knowledge of infant CPR 59
K.H. Reid, E.R. Mullins, V.G. Iyer (USA)
Changes in brainstem auditory evoked response latency predict survival after CPR in a rat model of cardiac arrest and resuscitation 65

Case report

M.D. Berg, A.H. Idris, R.A. Berg (USA)
Severe ventilatory compromise due to gastric distention during pediatric cardiopulmonary resuscitation 71

Letters to the Editor 75
Book review 81
Literature of resuscitation 83
Announcements 87

In this issue 1

Clinical papers

A.P.N. Rankin (New Zealand)
The in-hospital Utstein style: use in reporting outcome from cardiac arrest in Middlemore Hospital 1995–1996 91
K. Ravakhah, K. Khalafi, T. Bathory, H.C. Wang (USA)
Advanced cardiac life support events in a community hospital and their outcome: evaluation of actual arrests 95
A.D. Weinberg (USA)
The role of inhalation rewarming in the early management of hypothermia 101
E.O. Jørgensen (Denmark)
Selective neurological recovery or dissociated cardiac death—to be or not to be—during cardiopulmonary resuscitation 105
E.O. Jørgensen, S. Holm (Denmark)
The natural course of neurological recovery following cardiopulmonary resuscitation 111

Research paper

K. Sunde, L. Wik, P.A. Naess, A. Ilebekk, G. Nicolaysen, P.A. Steen (Norway., Norway)
Effect of different compression–decompression cycles on haemodynamics during ACD–CPR in pigs 123

Review article

J. Varon, P.E. Marik, R.E. Fromm, Jr. (USA)
Cardiopulmonary resuscitation: a review for clinicians 133

In this issue 147

Clinical papers

M. Kuisma, T. Määttä, P. Rosenberg, A. Alaspää (Finland, Belgium)
Utstein style—a suggestion for revision: A statement by the Helsinki Cardiac Arrest Research Team 149

F. Kette, R. Sbrojavacca, G. Rellini, G. Tosolini, M. Capasso, D. Arcidiacono, G. Bernardi, P. Frittitta (Italy)
Epidemiology and survival rate of out-of-hospital cardiac arrest in north-east Italy: The F.A.C.S. study 153

P. Martens, P. Calle, and the Belgian Cardio Pulmonary Cerebral Resuscitation Study Group (Belgium)
Theoretical calculation of maximum attainable benefit of public access defibrillation in Belgium 161

J. Varon, G.L. Walsh, P.E. Marik, R.E. Fromm (USA)
Should a cancer patient be resuscitated following an in-hospital cardiac arrest? 165

Experimental papers

C. Elding, P. Baskett, A. Hughes (UK)
The study of the effectiveness of chest compressions using the CPR-plus 169

S. Sato, N. Imagawa (Japan)
Effects of lidocaine and mexiletine on defibrillation energy requirements in animals treated with flecainide 175

C.B. Cairns, J.T. Niemann (USA)
Hemodynamic effects of repeated doses of epinephrine after prolonged cardiac arrest and CPR: preliminary observations in an animal model 181

L.L. Mielke, C. Frank, M.J. Lanzinger, M.G. Wilhelm, E.K. Entholzner, S.R. Hargasser, R.F. Hipp (Germany, USA)
Plasma catecholamine levels following tracheal and intravenous epinephrine administration in swine 187

N.R. Grubb, D. Cuthbert, P. Cawood, A.D. Flapan, K.A. Fox (UK)
Effect of DC shock on serum levels of total creatine kinase, MB-creatine kinase mass and troponin T 193

P.M. Dodek, B.R. Wiggs (Canada)
Logistic regression model to predict outcome after in-hospital cardiac arrest: validation, accuracy, sensitivity and specificity 201
